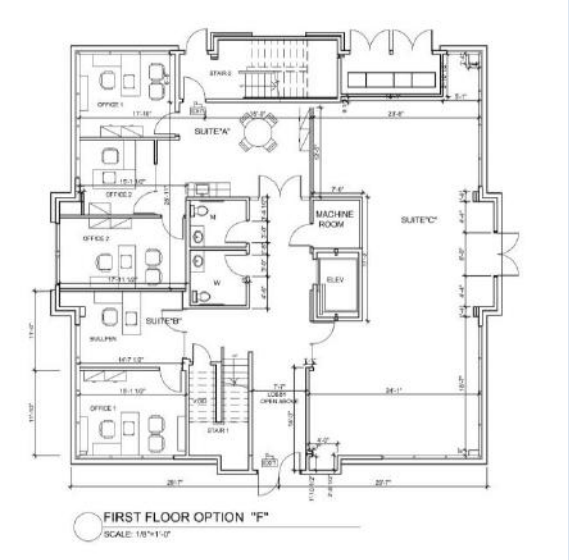
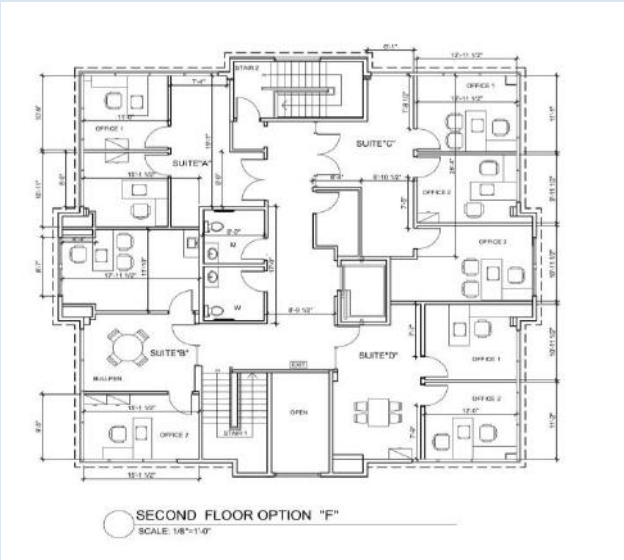
NEWS LETTER - JANUARY 2019

Recently Completed Project:

- **3D Rendering Residential** sample made by our excellence architect team.
- In these image 5000 pixels for a residential block of 14 multi-storeyed Bungalows and its site after creating a 3D model.
- We designed the driving ramp using general California Standards. It was difficult to meet the slope angle as space was not enough. Due to our expertise and knowledge of California standards, we were able to create the slope with a suitable angle.

Residential Architected Sketch





We have completed **Architectural Drawing Project** at **NY, USA** with help of **AutoCAD** 2019. (AIA Standard Layers) and time duration **8 hours** only.

Our Architectural services business is built on principles of providing a "Highly Personalized" approach to all of our clients building project.

- Commercial Architecture
- Cad Architectural & 3D Modelling
